

YASH DEEPAK KAMBLE

Mumbai, Maharashtra | +91 8356987186

yashkamble.tech@gmail.com | linkedin.com/in/yashdkamble | GitHub: github.com/YashTheTechie

PROFESSIONAL SUMMARY

Aspiring Software Engineer with strong foundations in **Java, Data Structures & Algorithms, Object-Oriented Programming, and Software Engineering principles**. Experienced in building scalable backend systems and RESTful APIs with a focus on **debugging, performance optimization, authentication, and writing maintainable code**. Solved **150+ DSA problems on LeetCode** and actively applying core computer science fundamentals to real-world engineering problems.

TECHNICAL SKILLS

- **Programming Languages:** Java, C++, Python, JavaScript, SQL
- **Core Concepts:** Data Structures, Algorithms, OOP, DBMS, Operating Systems, Computer Networks
- **Software Engineering:** REST APIs, API Design, Debugging, Agile Development, System Design Basics
- **Backend Development:** Authentication, Authorization, Session Management, Node.js, Express.js, Spring Boot
- **Frontend Development:** React.js, HTML, CSS, JavaScript
- **Databases:** MySQL, MongoDB, Redis
- **Tools & Platforms:** Git, GitHub, Linux, Postman, Microsoft Azure, AWS (Basic)

EDUCATION

B.Sc. Information Technology	June 2023 – June 2026
V.G. Vaze College of Arts, Science and Commerce, University of Mumbai	CGPA: 9.03

- Relevant Coursework: Data Structures, Algorithms, OOP, DBMS, Operating Systems, Computer Networks

Higher Secondary Certificate (HSC)	2021
Ruia College, Mumbai	Score: 90%

PROFESSIONAL EXPERIENCE

Data Science Intern Imarticus Learning	Nov 2025 – Jan 2026
---	---------------------

- Developed modular Python scripts for data processing following clean coding practices.
- Optimized complex SQL queries improving performance by **30%**.
- Debugged backend data pipelines ensuring **data consistency and fault tolerance**.
- Worked with structured codebases following modular and maintainable design principles.

PROJECTS

Customer Support Ticketing CRM (Helpdesk System) <i>Tech Stack: React.js, Node.js, Express.js, MongoDB, JWT</i>
• Developed a full-stack Helpdesk CRM enabling employees to create, track, and manage support tickets through a centralized platform. • Implemented JWT-based authentication, role-based access control, OTP verification for Admin accounts, and secure session management. • Built a complete ticket lifecycle workflow with status tracking, timeline visualization, and real-time updates across Created, In Progress, and Resolved stages. • Developed a two-way messaging system allowing Employees and Admins to communicate directly within ticket conversations. • Designed an Admin Dashboard providing insights into open, in-progress, and resolved tickets along with overall support activity metrics. • Created RESTful APIs and optimized MongoDB schemas for efficient ticket management, user operations, and dashboard analytics.
URL Shortener Service <i>Tech Stack: Java, Spring Boot, MySQL, Redis</i>
• Designed and developed a scalable URL shortening service supporting fast redirection and high availability. • Implemented unique short URL generation using hashing/Base62 encoding with collision handling. • Optimized read performance using Redis caching to reduce database load and improve response times. • Designed normalized database schemas and applied indexing for efficient lookups. • Implemented REST APIs with validation, exception handling, and layered architecture principles.
Homeo Ease – Clinic Management System <i>Tech Stack: Node.js, Express.js, MongoDB</i>

- Developed RESTful APIs for appointment scheduling and patient record management.
- Designed modular backend services ensuring scalability and maintainability.
- Implemented JWT-based authentication and role-based access control.
- Improved API reliability through structured debugging and exception handling.

Portfolio Website

Tech Stack: HTML, CSS, JavaScript

- Developed a responsive portfolio website to showcase projects, technical skills, and achievements.
- Designed reusable UI components and structured layouts for improved user experience.

ACHIEVEMENTS

- Solved **150+ Data Structures and Algorithms problems** on LeetCode.
- Strong understanding of **time and space complexity analysis**.
- Maintained a consistent **9+ CGPA** throughout undergraduate studies.

CERTIFICATIONS & TRAINING

- Microsoft Azure Fundamentals (Coursework)
- Introduction to Data Science – Cisco Networking Academy
